File Number:

The Honorable William H. Webster
Director, Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Webster:

The enclosed statement reflects the direct dollar costs of compensation and medical benefits paid under the Federal Employees' Compensation Act during the expense period of July 1, 1986, through June 30, 1987, for injuries or deaths sustained after December 1, 1960, by employees under your jurisdiction. It is presented by the Employment Standards Administration (ESA) in accordance with Section 8147 (b) of Title 5 United States Code.

Section 8147 (b) requires that an agency or instrumentality not dependent on annual appropriations reimburse the Employees' Compensation Fund for the costs expended on its behalf during the first 15 days of October following the date of this statement. Agencies dependent upon an annual appropriation are to include the amount billed in their annual budget request for the upcoming budget year, in this case, Fiscal Year 1989.

President Reagan, recognizing not only the impact of these significant costs but also the personal suffering each case represents, established a safety and health policy that requires agencies to reduce workplace injuries and illnesses. The Department of Labor's Occupational Safety and Health Administration (OSHA) is charged with providing guidance and assistance to you in this endeavor. We urge that you take a close look at your agency's safety and health program and provide the personal support that will be necessary to reduce your agency's injury and illness experience. OSHA's Office of Federal Agency Programs will assist you in any way it can.

With your continued concern and support, we will meet our commitment to improve the safety of workers throughout the Federal Government.
